## Data Retention Policy

This policy describes the information we process to support our product.

## **What kinds of information do we collect?**

To provide the Rental features, we must process information about you. The types of information we collect depend on how you use our Product: if you choose to just register only your personal info will be processed, if you also want to create an advertisement we will also store its info, if you want to apply for an advertisement we will also store your application information. In general we collect user personal info, user advertisement and applications.

## **Information retained until you remove it**

You are allowed to correct or delete data stored in your Rentler Account. For example, you can:

- Edit your personal info
- Delete your personal info
- Edit information about advertisement
- Delete information about advertisement

## **Information retained until your account is deleted**

User personal data is kept in the database until you choose to remove it. User password is secured and encoded. Data will be deleted if you won't be active for 60 days.

User advertisement and applications data is stored for an indefinite period of time until you choose to delete it.
